Developed and delivered by:

Dr. Craig Escudé who has over 20 years of clinical experience in treating people with severe and profound levels of IDD and extensive experience in training hundreds of clinicians, case managers, social workers, direct support professionals and others who work in this field. He is also one of a handful of Fellows of the American Academy of Developmental Medicine.

About IntellectAbility

IntellectAbility is the most trusted, leading authority and resource for tools and training to those who support people with vulnerabilities. Their staff have over 300 combined years of clinical and practical experience in providing healthcare and support.

“This course should be mandatory for all medical and dental students. In fact, providers from every discipline and level of experience would benefit from this course!”

— Jo Harbour, MD, Medical Director, Hudspeth Regional Center
