

Academy  
IDD SUPPORTER EDUCATION

# Replacing risk starts with **knowing how.**

IntellectAbility's Online Health  
and Safety Training

# Take the Fatal out of the Fatal Five

Take the Fatal out of the Fatal Five for your entire organization at all levels of support with these three comprehensive course tracks. Each course is designed to instruct on these important five conditions from a different support position's perspective.

## Fatal Five Conditions

1. Aspiration
2. Bowel Obstruction
3. Dehydration
4. Infection/Sepsis
5. Seizures  
+ GERD

### The Fatal Five Fundamentals

🕒 Duration: 4 Hours

**Great for:** Anyone who supports someone with IDD, DSPs, and general staff

**Gain essential knowledge on the Fatal Five.** This course clearly defines and illustrates each of the Fatal Five, how to spot them, who is at risk, what to report, and when staff should alert their medical manager or send the person to the emergency room.

### The Fatal Five Advanced

🕒 Duration: 6.5 Hours

🎓 CEU Credits: 7

**Great for:** Clinicians

**Gain a detailed, clinical look at the Fatal Five.** With a greater emphasis on health and safety repercussions, this course stresses training support staff on each item and how to encourage them to be vigilant in reporting health issues as they occur.

### The Fatal Five for Case Managers

🕒 Duration: 5.5 Hours

**Great for:** Case Managers

**Oversee and Advocate to prevent the Fatal Five.**

This course teaches Case Managers how to apply the knowledge to enhance the well-being of those they support. It also helps Case Managers be more effective overseers of health and safety and better advocates.

## Person-Centered Thinking goes beyond a mindset. It's a skill set.

Person-Centered Thinking is a set of values, skills, and tools used to help people reclaim or maintain a voice in their own lives.

Being knowledgeable of the essentials behind PCT is key to providing adequate support and giving people the opportunity for independence and growth.

License our comprehensive PCT online training courses for your organization.

### Person-Centered Thinking

🕒 Duration: 3 Hours

**Great for:** Anyone who supports someone with IDD

**Learn five of the eleven fundamental skills of Person-Centered Thinking.**

Supporters gain skills that facilitate finding the balance between what is Important To and For the person, while keeping the person at the center of the conversation.

### Orientation to PCT

🕒 Duration: 30 Minutes

**Great for:** Anyone who supports someone with IDD

**Start your journey into the life-changing world of person-centered approaches.**

Gain a good, general grasp on the foundations of person-centered practices as well as how and why the field of IDD utilizes the skills and techniques.

### Applying Person-Centered Thinking Approaches for Provider Agencies

🕒 Duration: 2 Hours

**Great for:** Provider agency management staff, program and house managers, and DSPs

**Bring about a person-centered cultural shift in delivery methods and approaches.**

Change how you deliver support while beginning to shift the culture of your organization to one that is person-centered on all levels.

*"I completed the Fatal Five course, and I loved it! It is such an important topic for our staff."*

- C. M., Training Manager

# Observe, Make Informed Decisions, and Take Action

**Great for:** Anyone who supports someone with IDD

## Actions Speak Louder Than Words

🕒 Duration: 40 Minutes

**Spot changes in baseline behavior that may indicate pain, illness, or an underlying issue.**

Learn the behavioral presentations of common medical conditions in people with IDD. Awareness of these conditions and how someone with IDD may communicate discomfort, illness, or pain, is essential to providing adequate support and appropriately targeting treatment needs.

## How to Manage Choking

🕒 Duration: 1 Hour

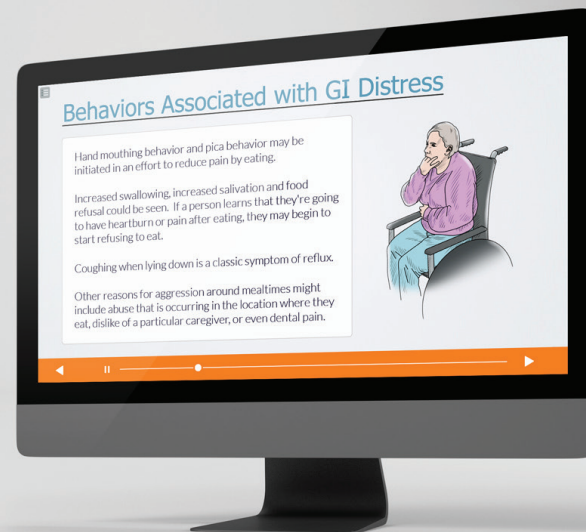

**Mitigate the risk of choking.**

This course instructs supporters on the causes of choking, who is at risk, how to mitigate that risk, and what to do when it happens.

## Person-Centered Health Supports

🕒 Duration: 3 Hours

**A Person-Centered approach to Occupational and Physical Therapy.** This course teaches both direct support staff and clinicians, such as occupational and physical therapists, how to approach therapy and apply the principles of their crafts to those with IDD in a person-centered manner.

## Curriculum in IDD Healthcare

🕒 Duration: 4.5 Hours

🎓 5 CMEs / 6 CEUs

**Great for:** Physicians, dentists, nurses, and nurse practitioners providing healthcare to people with IDD

**IDD Healthcare Fundamentals for Clinicians.** This course was created and delivered by a physician for physicians and other clinicians.

Clinicians gain a deeper understanding of the unique healthcare needs of those with IDD as well as pertinent, practical information that can be used immediately in their practices to improve outcomes.

This course covers everything from the history of IDD treatment to the reasons behind the move from institutional to community-based support.

- **Unlock the language of behavior and how it can point to specific underlying medical causes**
- **Improve communication between clinicians and supporters of people with IDD**
- **Learn from real-life case studies**

*"All medical providers and dentists should be required to take this course, and in my current job assisting clients with IDD, I had no training or exposure to IDD healthcare. This is a wonderfully condensed program full of valuable information."*

*- Julie Chrisholm, FNP-C*

## Where Seizures Occur

- ▶ If a seizure starts in only one side of the brain, then it is called a partial onset seizure
- ▶ If it starts on both sides of the brain at the same time, it is a generalized seizure
- ▶ Even if a seizure only starts in one part of the brain, it may progress to both sides

## Licensing

Our health and safety eLearns are available for annual licensing for unlimited access by your agency during that time. Pricing is based on the number of people your agency supports, rather than the number of staff or user accounts you use. Our pricing structure makes eLearn training affordable for agencies of all sizes.

Our interactive eLearns are designed to be hosted on a Learning Management System (LMS). This is a digital platform for managing and delivering educational training courses. The price of a big-name LMS can be out of reach for smaller organizations. If your agency does not have access to an LMS, IntellectAbility can provide access to our own for a nominal fee.

Visit our website to view our single-use eLearn courses available for six month licensing.

## Custom Developed eLearns

Fully customized eLearning that teaches the subject you want to be taught *exactly as you want it taught.*

Our team works with you from start to finish.

### Script & Voice Over

We begin by sourcing Subject Matter Experts (SMEs) tailored to your requirements. They could be your internal staff and/or IDD-specific experts with decades of experience.

- Script developed and implemented with your approval.
- Each module is narrated with closed captions.

### Animation & Illustration

Next, we design and outline your course to achieve the learning objectives.

- Custom animation and illustrations.
- Professionally shot studio videos
- Custom activities that test the learner's ability to apply your course instruction

### Learning Management System (LMS) & Reporting

Finally, your custom eLearn can be hosted in any standard LMS.

- We will help upload your custom eLearn to your LMS or IntellectAbility's.
- Receive reports showing user engagement, completion, and quiz outcomes.

*"IntellectAbility has been a staple, supporting our learning programs for the past 5 years, demonstrating exceptional leadership in collaborative partnership. The knowledge and attention to detail this organization brings to our most significant projects has aided in keeping [DBHDD] on track during major changes within our learning culture."*
