

Empower Your Workforce with Training

License our IDD-specific, person-centered health and safety training eLearn courses for your organization.

Actions Speak Louder Than Words*

1 Hour / 1 Module

Recognize behaviors as signs of underlying medical conditions in people with IDD.

Curriculum in IDD Healthcare

4.5 Hours / 6 Modules / 5 CMEs or 6 CEU Credits

Designed for physicians and clinicians, learners gain pertinent, practical information that can be put to use immediately to improve outcomes.

Fatal Five Fundamentals*

4 Hours / 7 Modules

Designed for Direct Support Professionals (DSPs) and general staff, this course covers the Fatal Five by clearly defining and illustrating each and how to recognize and report them.

Orientation to Person-Centered*

Thinking (PCT)

30 Minutes / 1 Module

Gain a general grasp on the foundations of person-centered practices and how and why the field of IDD utilizes the skills and techniques.

A Guide to Manage Choking*

1 Hour / 2 Modules

Learn the causes of choking, who is at risk, how to mitigate that risk, and what to do when it happens.

Physical and Nutritional Health Supports*

3 Hours / 3 Modules

This course teaches how to apply the principles of occupational and physical therapy in a person-centered manner.

Fatal Five Advanced

6 Hours / 7 Modules / 7.75 CEU Credits

Designed for clinicians, this course goes into greater depth on the Fatal Five and gives greater stress on health and safety repercussions, and how to train staff on each item.

Person-Centered Thinking (PCT) eLearn*

3 Hours / 6 Modules

Gain a solid set of fundamental person-centered values and a select set of skills and tools to help people reclaim or maintain a voice in their own lives.
